### PATROLMAN REICHERT WOUNDED BY ROBBER; CONDITION IMPROVED

Cyril J. Reichert, Mississippi State Highway Safety Patrolman, is in a critical condition in the Charity Hospital in New Orleans, suffering from six bullet wounds he received Monday afternoon in a shooting affray on U. S. Highway 90 between the Rigolets and Chef Menteur Bridges in Louisiana.

Patrolman Reichert was attempting to take into custody Robert Davis of San Antonio, Texas, who had earlier robbed and shot Charles McSorley, 21 years old Paratroop veteran from Detroit, Mich.

McSorley had hitch-hiked a ride with Davis at or near Michoud, La., and open reaching a point this side of Pearlgrain, Davis stopped the car, which he had stolen in Texas, drew his gun a 32 automatic and forced McSorley to walk into the woods. He ordered McSorley to take off his clothes, and directed him to walk ahead. He then shot the youth in the left arm and when the boy turned to face him he was shot in the right side, which shot pierced his lung. The shot knocked McSorley to the ground and Davis thinking he had killed him, picked up his clothing, returned to his car, and headed back for New Orleans.

McSorley completely stripped of his clothing made his way to the highway where he was picked up by Robert Meyer and Franklin Parks of New Orleans. Patrolman Reichert drove past and was notified of the robbery and shooting and he lead the way to take the wounded youth to the hospital in New Orleans.

On the way over McSorley recognized the car and his assailant Davis, as they passed it on the highway, and Patrolman Reichert was signalled that the car and driver they had passed was the man they were looking for. He sounded his siren, and then drove in front of the car, and forced Davis to stop. They both alighted from their cars and the Texas fired a shot which struck Reichert in the abdomen. He then emptied his gun at the patrolman striking him six times. In the meantime Robert Meyer who had picked up the wounded youth, came closer to Davis from the rear, and seizing him, together with Franklin Parks threw him to the ground, and kicked him into unconsciousness.

Davis is being held in the custody of the Louisiana officers until such time as the condition of Patrolman Reichert is determined. With his condition improving daily, Davis will probably be turned over to Hancock County and authorities to be charged of wounding and robbery with a fire arm which carries a minimum sentence of death.

### STATE BAND CLINIC COMES TO THE COAST

The Mississippi State Band Clinic, an annual event sponsored by the Mississippi Music Educators Association, will be held in Gulfport on February 6, 7, 8. This will mark the first time that the State Band Masters Association will hold the annual clinic on the Mississippi Coast.

The clinic was originally scheduled to take place at Mississippi Southern College, Hattiesburg. However, because of some conflict in its scheduling of events, the officials of Mississippi Southern College cancelled the agreement which they had made to the Bandmasters Association, namely, to house some of the boys and girls attending the clinic, to feed the clinic students two meals a day in the college dining hall and to allow the use of the auditorium for rehearsals during the three days of the clinic.

For a few days it looked as if the clinic would have to be called off. However, this unfortunate incident was prevented by J. Stanley Arnold, Director of the Gulfport High School Band, who came to the rescue. He, with the unstinted cooperation of his Superintendent, B. Frank Brown, the parents of the music students of Gulfport High School and the civic organizations of Gulfport, accepted to sponsor the clinic and promised to make it a success.

Clinic students will come from all over the State. They will represent the best student musicianship in the state's high school bands. Two bands have been formed, the concert band numbering 85 pieces will be under the directorship of the guest conductor, David Hughes. The reading band numbering 770 pieces will be under the directorship of guest conductor, Palmer Myron. Students and directors will register Wednesday afternoon in the Community House from 4:00 to 6:00.

Rehearsals for both bands will get on the way Thursday morning. The guest conductors will give the students extensive drilling in band techniques throughout the clinic. Directors will be given a course of lectures dealing on methods used in developing a fine performing band.

A special feature on the program for Saturday will be the percussion clinic which will be conducted by Phil Grant, professional drummer, and Educational Director and Percussion Expert for the Gretsch Manufacturing Co., New York.

The clinic will be brought to a climax Saturday night with a concert by the two clinic bands in the Gulfport High School auditorium at 8:00 p. m. The Mississippi State Band Clinic brings to the music lovers on the Coast an opportunity to hear an outstanding music program presented by two bands made up of the finest high school music students in our state. Even though national statistics on high school standards place Mississippi as the thirty-ninth state on the list, yet in music, especially band, Mississippi is rated with those states found in the upper bracket. You will not regret having attended the concert.

The following students from the St. Stanislaus Band have been selected for the clinic. In the concert band, "Toby" Scalfie, Eb Clarinet; Norbert Carnovale, solo cornet; Joseph Fasold, Trumpet; Norman Carnovale, second Bb Clarinet. In the Reading Band, J. T. LaNasa, solo Bb Clarinet; J. # Forecast for 1947

Business forecasts for the New Year were as varied as they were confusing. They were as full of ifs as long-range predictions on the weather and about as certain.

One thought, however, ran through all these financial prognostications—they all agreed that if production continues without interruption, business will be good through 1947. Naturally, if we fail to produce the goods to meet the pent-up demand for merchandise at home and abroad, we cannot hope to have prosperity, and may not deserve it.

It all comes back to the very simple fact that peacetime prosperity is produced by men and women who work and save for it—they work to create purchasing power—they spend and save to expand their businesses and extend their investments.

No individual has ever achieved prosperity except as he worked for it. And no community and no nation has ever kept its commercial machine running smoothly on idleness or strife. Industrial peace and united diligence are the friction removers so much needed to sustain a healthy economy.

## MISSISSIPPI GULF COAST

At the turn of the year conditions on the Gulf Coast give promise of increased activity. An area that pioneered in the manufacture of lumber, in ships, seafood, resort development, pecan growing and the cultivation of tung nuts, makes substantial progress. The discovery of new oil fields in South Mississippi brings the magic of this new wealth closer to tide-water. The location of new industries provide the stimulation needed to increase our income and opportunities for new investment. The year of 1947 should be one of commercial progress and community achievement on the Mississippi Gulf Coast.

## RESOLUTION

Our Christmas Savings Club members are increasing, and it is not too late to join. Those who paid their January bills out of their Christmas Club money like the idea and recommend it as a burden lifter. It made their Christmas doubly merry. You, too, can make the season of seasons a happy event if you will prepare for it and sign up early.

One forecast is ever certain. If you will resolve to save more through 1947 than you did in 1946 you will not be sorry.

JACKSON

**PROCLAMATION**

"Whereas, it has been made to appear that the tax assessment rolls of Hancock County, Mississippi, were not filed in the office of the Sheriff and Tax Collector of Hancock County, Mississippi, until the 7th day of January, 1947, because of the fact that the Tax Assessor of Hancock County was granted additional time by the Board of Supervisors to complete and file such assessment rolls, and because of the further fact there was unavoidable delay in fixing the tax levy for said Hancock County, Mississippi, for the fiscal year 1946; and

"Whereas it appears further, for the reasons stated above, that it will be impossible for the said Sheriff and Tax Collector of Hancock County, Mississippi, to prepare and issue receipts for ad valorem taxes for the year 1946 to all persons who will desire to pay such taxes before the due date of February 1, 1947; now

"Therefore, I, Fielding L. Wright, Governor of the State of Mississippi, by virtue of the authority vested in me by Chapter 204, Laws of 1944, do hereby find and proclaim that because of the unusual conditions existing in said Hancock County, Mississippi, it will be impossible to receive and collect all such ad valorem taxes before the due date of February 1st, 1947, and that neither the taxpayers nor the Tax Collector have been negligent or responsible for the delay incident to making such payment; and I do, therefore, extend the time for the imposition of the penalty provided by said Chapter 204, Laws of 1944, for a period of sixty (60) days from and after February 1, 1947.

"IN TESTIMONY WHEREOF, I have set my hand and caused the Great Seal of the State of Mississippi to be affixed, this the 20th day of January, 1947.

(THE GREAT SEAL)

F. L. WRIGHT,  
Governor.

By the Governor:  
WALKER WOOD,  
Secretary of State"

Be It, Therefore Ordered by the Board that pursuant to said proclamation John A. Egloff, Sheriff and Tax Collector of Hancock County shall be relieved from the collection of any penalty or penalties upon the taxes not paid on or before February 1st, 1947, and until sixty (60) days thereafter.

Be It Ordered by the Board that the Board adjourn until the Board in Course.

CHAS. B. MURPHY, President.

### Soil Conservation News

According to Mr. J. L. Bishop, soil conservationist for the Hancock County Soil Conservation District, the work of his department is progressing rapidly and things are shaping up for an accelerated program for 1947.

The soil conservation service carries on a full program for all types of soil conservation and in the next few weeks will discuss each phase more fully.

At present the different phases are education, farm planning, cropping systems, terracing and water disposal, pasture and supplemental grazing crops, woodland conservation, wild life, and seed production.

It will be interesting to note at this time that 80 farms have been chosen from all parts of the county for an intensified conservation program for demonstration purposes.

## "I would like to tell you why Increased Rates on Telephones are Necessary"

Today, more than ever before, Mississippi needs adequate, dependable telephone service, and it is our purpose to provide it. We are now furnishing more service to Mississippians than at any other time in our history.

Both local and long distance calls have reached an all-time high for this state and more and more people want telephones. We installed 43,000 new telephones in 1946. But, we still have 16,400 orders on hand for telephone service. Our study of the state's growth indicates that the demand for more service from present as well as new customers will continue to increase.

Although the cost of everything we do to provide service keeps going up, your local telephone rates generally are no more today than 20 years ago while long distance rates are lower. Because of this, the amount of money we are paying out is increasing faster than the amount we are taking in, despite a record volume of business. Since 1940, the costs of providing service in Mississippi have climbed 148 per cent, while revenues have increased only 116 per cent.

Total payroll costs have increased 265 per cent since 1940. Wage rates in Mississippi have been raised during the past two years by \$1,988,000 on an annual basis. This was in keeping with national policies and trends and to assure competent personnel to provide adequate service. We now have 3,800 Southern Bell people providing service to Mississippians. Wages account for about two-thirds of our operating costs.

The cost of erecting telephone buildings is up 75 to 100 per cent and the overall cost of providing telephone facilities is up 50 to 65 per cent.

The rapid advance of costs in comparison with revenues has caused our rate of earnings to go down. In 1940, the Company was earning 3.81 per cent on the amount of money invested in the state. In 1946 our earning rate was only 8/10 of one per cent. The 1946 rate reflects the latest wage increases and does not include any possible tax refunds

available only during 1946 on 1944 federal income taxes. Southern Bell's earnings are today the lowest in history.

Improved earnings are essential in order:

To meet the day to day cost of providing service to present customers.

To raise new money on favorable terms for additional facilities to improve service to present customers and expand it.

These are the reasons we have asked authority to raise rates for local service and for most long distance calls within the state.

The requested rate increase will not produce all the added revenue that current costs indicate is needed but will afford immediate relief. Whether the requested rates will prove sufficient will be determined by operating experience under the new rates. The increased income under the new rates would amount to only 12 1/2 per cent of our total Mississippi revenues. In face of the greatly increased costs of providing service, this is moderate.

We must go ahead with a huge expansion program and we are preparing to spend about \$25,000,000 in the next five years on construction work to improve and expand telephone service in Mississippi. We must proceed with this construction work, despite high costs, in order to meet demands for service.

Mississippi is now in a period of its greatest growth and expansion, a growth that will bring the state more prosperity than it has ever known. Good and effective telephone service is essential to this progress and the Telephone Company must be in a position to supply it.

We believe, therefore, that our request for increased rates is sound and in the public interest.
